Claims 1-8 are objected to because of the following informalities: a period is missing at the end of claims 1-2 and the term "and" is missing between steps (b) and (c) in the process of claim 2. Since claims 3-8 depend from the objected claim 2, said claims are also objected to. Appropriate correction is required.

Claims 9-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The terminology "compound of formula 1 above" (claim 9) renders claims 9-10 indefinite in that the structural formula of the compound of formula 1 has not been set forth and there is no antecedent basis for the term "above".

Claim 11 provides for the use of a compound of formula 1, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Claim 11 is rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).

Sati et al (Journal of Natural Products, Vol. 50, No. 2, pp. 263-265, March-April 1987) disclose spirostanol glycoside and is cited to show the state of the art.
